

Music Development Group: Meeting 9: 6th January, 2017

Agenda:

Review of draft specification

The group worked through the draft specification to ensure alignment across all sections. There were some further edits of the Learning Outcomes, but there was agreement that this was ready to proceed to the Board for Junior Cycle and the group was happy to see this draft version go for consultation.

Final Examination

The group discussed the nature of the final examination, which will constitute a practical examination and a written examination. Both of these will be administered and marked by the SEC.
