

Music Development Group: Meeting 7: 17th November, 2016

Agenda:

Rationale

The group was asked to consider the final wording for the rationale. Feedback was gathered from each group, in the format of what should be kept, what needs editing or deleting and what is missing.

Learning Outcomes

The group looked at the learning outcomes for the procedural knowledge strand and considered some further edits. The learning outcomes for the Culture and Context strand were discussed. Again, further work will be done by the group on these in advance of the next meeting.

Classroom-Based Assessment 1

The content for CBA 1 was discussed, and the group were asked to audit the text for the rationale for this strand, and add to the list of composition stimuli. Feedback was sought on the reflection template and possible headings were discussed.
