

| Senior Cycle Design and Communication Graphics | Development Group Meeting 7 30 April 2025 Short Description |
|---|--|
| Agenda Item | Notes |
| Welcome by the Chair, minutes of the last meetings | The minutes of the last meeting were discussed and adopted. |
| Updates | Updates were given regarding the public consultation on the draft LC Construction Technology and Engineering specifications. |
| Exploring the AAC in DCG | Members continued their discussions regarding the AAC, focusing on key issues such as assessment load, weighting, timing, and the focus for student learning. Additionally, the group explored what a suitable design problem might entail for a 6th-year DCG student, considering the appropriate level of challenge and relevance. |
| Further development of the Strands Structure | The group considered three draft strands and explored the most relevant and important learning for students. |
| Next steps and next meeting | The chair reflected on the work done and thanked the members for their attendance and contributions. Next Meeting: 13 May 2025 |
