

Mathematics	Development Group Meeting #14		8 <sup>th</sup> / 9 <sup>th</sup> December 2025
Agenda Item	Short Description		
Agenda Item	Notes		
<b>Governance</b>	No conflicts of interest declared.		
<b>Review Strand 2</b>	The meeting commenced with a discussion on the layout of the specification template. It was agreed to use this section to decide on the wording for the LOs and the interaction of the two columns and how to show where the unifying strand underpins a contextual LO in a strand. Key discussion was focused on the breadth and depth of the treatment of geometry and trigonometry. The wording of the learning outcomes in this strand were agreed and recorded for further review.		
<b>Review Strand 4</b>	The learning outcomes in this strand were discussed and agreed upon with consideration of clarity on the depth of treatment required for functions and differential calculus. The meeting ended early due to a weather alert, and it was decided to return to this discussion at the next meeting.		
<b>Next steps</b>	<p>Minutes for DG 13 to be reviewed at the next meeting. The Chair thanked members for their attendance and active engagement in the meeting.</p> <p><b>Next Meeting: Wed 7<sup>th</sup> January</b></p>
