

<b>LC Physics and Chemistry</b>	<b>Development Group meeting #6: 03.04.25</b>
	<b>Short description</b>
<b>Agenda item</b>	<b>Notes</b>
<b>Key competencies</b>	The group reviewed drafts sections of the specification; Key Competencies and Teaching for Student Learning and offered suggestions for refinement.
<b>Learning outcomes</b>	The group considered the role of learning outcomes and the opportunities and challenges related to their use in specifications. To exemplify the approach taken to ensure clarity without overspecification examples using the bespoke NCCA specification template were shared and discussed.
<b>Strands of study</b>	The group considered the proposed learning areas in the contextual strands in relation to the aspirations agreed for a student on this subject. The group offered feedback on the development of a criteria for prioritisation of learning, providing feedback on areas of learning that should be cut and those that should be further developed into learning outcomes.
<b>Next steps</b>	<p>Next Meeting: Tuesday May 13<sup>th</sup> and Wednesday May 14<sup>th</sup> 2025</p> <p>The Chair reflected on the work of the meeting and thanked the members for their attendance and contributions.</p>
