

LC Physics and Chemistry	Development Group meeting 9: 02.09.25 Short description
Agenda item	Notes
Draft strands of study	<p>The group reviewed draft strands one and two that were redrafted based on the group's feedback. There was a welcome for the increased focus on fundamental learning and opportunities to engage in experimental and research investigations. Members welcomed the inclusion of the four fundamental forces of nature through energy and matter and offered some suggestions for refinement. Members also suggested areas of learning and applications most suitable for exploration in strands three and four.</p>
Assessment	<p>The group explored initial ideas about the format of the AAC.</p>
Next steps	<p>Next Meeting: Thursday, October 2nd 2025</p> <p>The Acting Chair reflected on the work of the meeting and thanked the members for their attendance and contributions.</p>
